

to the state government of Alabama or especially to professional archeologists. They belong to the people of Alabama of which we are all one. The people of this state who are divers, relic hunters, fishermen, motorcyclist or whatever, that work and pay taxes don't deserve the kind of treatment that this act is shoving down their throats. To put it simply, "This dog won't hunt!" You simply can not put through something like this and expect it to stand. It won't!

If you would like to have knowledgeable input into this act for regulations then I suggest that you contact some of the people that it will effect, such as myself. Please keep me informed of all meetings and I will try to make the next one.

Thank you very much.

Sincerely,

A handwritten signature in black ink, appearing to read "S. Phillips", written over the printed name.

Steve Phillips
